## KNOWIFY FOR CONTRACTORS: TOOLS HELP MANAGE BUSINESS BETTER

For the first time you'll be able to manage both the service ticket side of your business and the long-term contract work in one easy-to-use, highly automated system. Better yet, Knowify syncs with your QuickBooks, ensuring that the operating side of your business and the accounting side of your business stay up to date with one another.

**Dispatch:** Knowify's service ticket/dispatch features will allow you to view a map of your service appointments, see your resource schedules and availability, and book new appointments in seconds. Your dispatched teams can view work orders, check in and out of jobs, record comments, and mark jobs as finished from Knowify's powerful mobile app.

**Contract work:** From bid to billing, Knowify's job management tools will help you deal with the painful administrative tasks that can really burden a plumbing company. You can use Knowify's powerful project management features to cost

out jobs and then run them once they're live; prepare bids or change orders and submit them for e-signature directly through the system; track resource schedules and worker timecards, including a special "foreman view" your on-site foremen can use to punch in time for everyone from the job-site quickly and easily; prepare and send purchase orders to your vendors through the system; bill for your work with standard invoices or with AIA-style applications for payment, depending on the job; and more. ●
